

GREENACID NEW LIQUID

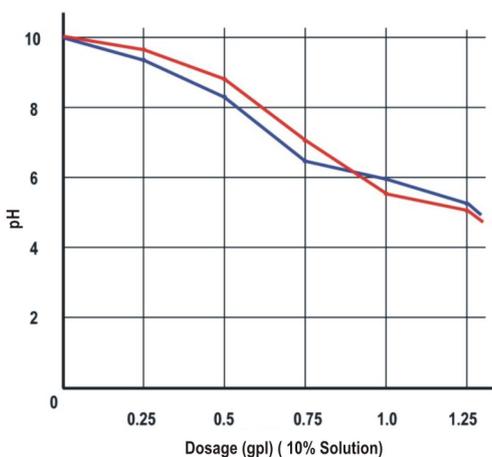

A new generation acid buffer system for use at all operations where acetic acid is used in textile industry

HIGHLIGHTS

- Ecofriendly, nearly 50% reduction in BOD/COD
- Assures consistent results in polyester dyeing with very high levelling properties and true colour yield
- Very less odour
- Enhanced hard water stability gives unique buffering action
- No additional acid
- More stable, pH of neutralized fabric remains more stable
- Specially suited for package dyeing systems
- No yellowing of shades in case of white
- Much less volatility
- Has greater core alkali neutralisation

pH CURVE FOR NEUTRALISATION

Glacial Acetic Acid ————
