

# POLYESTER - WOVEN / YARN

## 2.0 DYEING

### 2.1 DEAERATING AGENTS

#### ZYWET PDG LIQUID

A penetration accelerant with high wetting action and durable foam-inhibiting property, especially for continuous processes

### 2.2 LEVELLING AGENTS

#### BAREL KB LIQUID

A levelling agent having an equalizing effect on the disperse dye due to its fibre swelling action, taking care of streaky dyeing due to different merge numbers and variable tension during texturizing

#### BAREL SPN LIQUID

Specially designed for covering material induced barness in the dyeing of 100% texturized Polyester

#### KRISIL DFT SPL LIQUID

Ultimate levelling agent for dyeing of Polyester and their blends with disperse dyes

#### GREENDYE VIL LIQUID

An acid buffer system specially developed for Polyester dyeing

#### GRITACOL IO LIQUID

A highly effective levelling agent with property to hold the oligomer which comes out during disperse dyeing in suspension and thoroughly disperse it enabling the oligomer to be drained along with the liquor

#### GRITACOL ORL LIQUID

An excellent leveling and dispersing agent for dyeing of Polyester and their blends with disperse dyes

#### KRISIL AB SPL LIQUID

Ultimate levelling agent for dyeing of Polyester and their blends with disperse dyes

#### KRISIL MLA LIQUID

An economical leveling and equalizing agent to aid migration of disperse colours at top temperature and produce level dyeing

#### ZYCOL BCL LIQUID

Specially designed for covering material induced barness in the dyeing of 100% texturized Polyester. It also has levelling and dispersing action

#### ZYLON AB LIQUID

Ultimate levelling agent for dyeing of Polyester and their blends with disperse dyes

### 2.3 DISPERSING AGENTS

#### DISPA HOT LIQUID

A high performance dispersing agent, especially suitable for high dispersion stability dyeing of Polyester in HTHP machines

#### DISPA PDN ECO POWDER

A high performance dispersing agent, especially suitable for high dispersion stability dyeing of Polyester in HTHP machines

#### DISPA PDN LIQUID

A high performance dispersing agent, especially suitable for high dispersion stability dyeing of Polyester in HTHP machines

#### DISPA WS LIQUID

An anionic dispersing agent especially suitable for polyester dyeings at high temperature

#### DISPA WS POWDER

A high performance dispersing agent, especially suitable for high dispersion stability dyeing of Polyester in HTHP machines

### 2.4 ACID BUFFERS

#### DYMAX PB LIQUID

A new generation acid buffer system specially developed for Polyester dyeing

### 2.4 ACID BUFFERS

#### DYMAX PI LIQUID

An acid buffer system specially developed for Polyester dyeing

# POLYESTER - WOVEN / YARN

## 2.0 DYEING

### 2.4 ACID BUFFERS

#### **GREENDYE AB LIQUID**

An acid buffer system with dispersing and sequestering properties for dyeing Polyester fibers and their blends

#### **GREENDYE AI LIQUID**

A new generation acid buffer system specially developed for Polyester dyeing

#### **GREENDYE CHR LIQUID**

An acid buffer system with dispersing and sequestering properties for dyeing Polyester fibers and their blends

### 2.5 DIFFUSION ACCELERANTS / CARRIERS

#### **GENTRATE EN-200 LIQUID**

A novel diffusion accelerant for high temperature dyeing of Polyester with disperse dyes

#### **RAPID GE CLASSIC LIQUID**

A novel diffusion accelerant for high temperature dyeing of Polyester with disperse dyes

### 2.6 REDUCTION CLEARING AGENTS

#### **GREENCLEAR ARC LIQUID**

A novel dispersing and washing off agent for disperse prints in acidic range

#### **GREENCLEAR DM LIQUID**

A novel dispersing and washing off agent for disperse prints with a stable redox potential

#### **GREENHYDRO 400 POWDER**

An eco-friendly replacement for conventional hydro-caustic reduction clearing process

### 2.7 LOOP ACCELERATORS

#### **ZYPRINT ELA NEW LIQUID**

An accelerator for superheated steam fixation of disperse prints

#### **ZYPRINT HTP-S LIQUID**

An accelerator for superheated steam fixation of disperse prints

#### **ZYPRINT SUPER XL LIQUID**

A specially designed all in one product for disperse printing

#### **ZYPRINT VXL LIQUID**

A novel product for increased colour yield with disperse, acid, cationic and metal complex dyes on polyester, acrylic and polyamide fibres

### 2.8 SPECIAL AIDS

#### **EASYPRINT KBI LIQUID**

A novel product for a range of textile printing pastes to improve wetting and penetration with foam suppressing properties

#### **GREEN OXALIC POWDER**

A new generation acid buffer system for use at all operations where oxalic acid is used in textile industry

#### **SENSOCRYL MI5 LIQUID**

Antimigrating agent to be added to the padding dye bath

#### **ZYCOL CW LIQUID**

A special aid designed for washing off of disperse printed /dyed and pigment dyed fabric

#### **ZYCOL EDAS LIQUID**

A specially designed all in one product for disperse dyeing

#### **ZYCOL TSA LIQUID**

A unique solvent based interpolymer designed for multifunctional use in textile processing

#### **ULTRAZYME POWDER**

An economical blend of biocatalysts for efficient removal of printing gum from polyester and cotton printed fabric

#### **ULTROX G POWDER**

A blend of biocatalysts for efficient removal of printing gum from Polyester and Cotton printed fabrics
